Kindergarten/1st Grade News:

K/1 has been working very hard on their academics. In math they are working on combinations to make a given number, understanding what the equal sign really means, and problem solving. They work for an hour every day in math. On the fun side, they have been leaning how to take brain breaks. These are 3 min. exercises we watch online at "go noodle". Ask your child about the dino stomp and chillax. They have a lot of fun and these breaks are shown to improve a student's attention and concentration.
